

An Allegro Review is
Pure Practice
For CEN Exam Preparation

No more sitting through endless and overwhelming lectures! An Allegro CEN Review employs a novel, rapid-fire educational format designed to actively and continuously involve you in the learning process. Our Question-Answer-Explanation format is consistent with how adults learn in real life. Every participant is provided an electronic keypad to anonymously answer dozens of practice questions. Feedback is immediate, allowing you to compare your choices to the correct answer and to the responses of your peers.

During the course of the 2-day program you'll take a mock certification exam. Allegro Review questions are carefully selected to reflect items found on the actual CEN exam and emphasize important teaching points. Following each question, an expert instructor presents rationales for correct and incorrect responses in an engaging, highly visual 5 minute mini-lecture. Then it's on to the next question! This format promotes right and left brain learning, maintains participant interest, and breaks key concepts into bite-sized chunks that aid information retention.

To facilitate ongoing exam preparation, you'll leave with a 150 question *Allegro Reviews Emergency Nursing Pocket Study Guide 2nd ed.* and an individualized assessment, documenting your score for each test section, so you can target specific areas for further study.
